Devora Brand Guidelines

How the Devora name, colors, and type should be used in press and partner material.

Devora

Sample document created for the Devora demo website.

Our name and wordmark

Devora is always written with a capital D and lowercase letters. The wordmark pairs a teal capital D with the rest of the name set in the heading typeface. Please use the supplied logo files rather than retyping or redrawing the wordmark.

Clear space and size

- Leave clear space around the logo equal to the height of the letter D on every side
- Minimum width: 80 px on screen, 25 mm in print
- Do not stretch, rotate, outline, or add shadows or effects

Color

Devora uses a deep navy as its base, with teal as the single accent color. Use teal sparingly, for emphasis and calls to action.

Body text	Inter	Regular, 16 px minimum on screen
Code and data	System monospace	Only where code is shown

Voice and tone

We write the way we work: direct, specific, and free of hype. Prefer short sentences and concrete numbers. Say what we built and what happened, and let the results do the persuading.

Do	Avoid
Say what shipped and when	Vague claims like 'world-class' or 'cutting-edge'
Use plain words	Buzzwords and unexplained acronyms
Credit clients and teammates by name	Overstating results
